Gustavo González, his wife Nelly Gallegos and their daughters Jennifer and Sofia.

Gustavo González is a 28 year old student from a rural town in Coahuila, Mexico called *La Hedionda Chica*. Gustavo grew up in a Christian home, but upon the death of his father during his middle school years, he rebelled and grew apart from the Lord. He later returned to Christ at 24 years of age. Gustavo's pastor, who is a Colegio graduate, encouraged him to consider full time ministry. Gustavo was reluctant at first but later opened his heart to the Lord and asked

that if it was in His will to use him in a special way, that He would open the doors. Gustavo is now a 4th year Ministerial Science student and says he and his family have been blessed during their time at Colegio Biblico: "I know it's God's will for us to be here... and I praise Him because He has used us." Gustavo has a strong desire to become a professor. He plans to complete his education at Colegio to later go on to post-graduate studies. Gustavo and his family have experienced the many challenges of being away from home and their loved ones but says: "When I got here I was immature, rebellious, and my faith was weak, but God is faithful and He has worked in my life and that makes it all worth while."

Attention churches!

We have lost track of one of our **displays** that we send out for Missions' use. If your church has it, we'd greatly appreciate if you could send it our way! Thank you.

New Chairs and Tables

As you know, the Multipurpose Building is ready to be furnished! If you would like to make a special donation, send your check and write "new chairs and tables" on the memo line. The approximate costs for each folding table is \$44.63 and for each folding chair \$20.35.

Volunteer Pete Beal and some students building a barrier.

Library Flooding

After recent strong rains, our library at the Eagle Pass Campus has been flooded once again. Volunteer, Pete Beal from Dix, Illinois set out to build a concrete barrier around the building with the help of some of the students. Hopefully this measure will prevent further water damage to the building. After that, some repair work will need to be done to the roof.

HAPPY THANKSGIVING
